

enviroCHOICE

# Western Australia

## Single-use Plastics Ban

An aerial photograph of a crowded beach. The sand is light-colored, and the water is a clear, shallow turquoise. Numerous people are scattered across the beach and in the water. Many people are holding colorful umbrellas, primarily in shades of blue and red. The overall scene is one of a busy, popular beach destination.

# WA Plan for Plastics

# STAGE 1

## 1st July 2022

- **Plastic cutlery**
- **Plastic drink stirrers**
- **Plastic plates, including coated paper plates**
- **Plastic bowls without the lid** (any bowl used for food and intended to be supplied with a lid is not banned. Plastic bowl lids are not banned)
- **Plastic food container without a lid** (Any container used for food and intended to be supplied with a lid is not banned. Plastic container lids are not banned.)
- **Expanded polystyrene food container with or without a lid**
- **Expanded polystyrene lid for food containers**
- **Expanded polystyrene tray** (does not include for raw meat and seafood applications)
- **Plastic bag with a handle** (does not include produce roll, garbage bags, reusable bags made from non-woven, RPET or nylon, reusable polypropylene bags must be 90gsm and have sewn seams)
- **Plastic straw** (healthcare, airlines and prepackaged products exempt, food and beverage retailers can also provide a single straw from below the counter on request, however this is optional)

## 1st October 2022

- **Plastic cups for cold beverages. Lids are exempt.** Please note, any plastic cup that has a food application (eg. sundae cups) are banned on 1st July 2022, however, if a lid is provided on the cup (eg plastic lid on sundae cup), it is not banned.

## STAGE 2

### 1st September 2023

- **Expanded plastic packaging** (loose fill peanuts)
- **Expanded plastic cups** (foam)
- **Expanded plastic trays for raw meat and seafood**
- **Degradable Plastics**, including oxo-degradable and landfill degradable
- **Cotton buds with plastics shafts**
- **Microbeads**

### 1st March 2024

- **Coffee cups** (Unless Australian Certified Compostable)
- **All disposable cup lids that contain plastic & bioplastic**
- **Food Trays containing plastic**, unless a lined paperboard to Australian Compostable Standards

### 1st September 2024

- **Produce bags for fruit and vegetables** (unless certified Australian Compostable)
- **Food containers** (conditions apply that allow the use of these items in certain settings. See next page for an explanation of these conditions)
- **Plastic lids for containers, trays and bowls** (unless the lid is a lined paperboard to Australian Compostable Standards. Conditions also apply for the use of plastic lids in certain settings. Please see next page for more information)

### 1st July 2025

- **Foam Packaging for transportation of products less than 45kg that are not fragile.**

# CONDITIONS APPLY from 1<sup>st</sup> September 2024

## Plastic Lids for Bowls, Trays & Containers

Plastic lids (including PLA lids) may only be used in certain settings. This type of lid is **acceptable for use in a pre-packed takeaway setting** (eg. on a shelf in a retail setting, or pre-prepared and on display in a cafe for customers to grab & go). The use of a plastic lid for these applications are only permitted if the base of the vessel is made from a natural, plastic free material, or an Australian Certified lined paperboard.

This type of lid is **banned if the customer is being served food directly**. Food delivery, such as Uber Eats & 'doggie bag' applications at a restaurant will prohibit the use of a plastic lid.

## Hinged Containers with Plastic

Hinged lid containers with a window, can only contain plastic that includes a lining, certified compostable to Australian standards. A hinged container with a window, is **acceptable for use in a pre-packed takeaway setting** (eg. on a shelf in a retail setting, or pre-prepared and on display in a cafe for customers to grab & go). The use of a plastic lid for these applications are only permitted if the base of the container is made from a natural, plastic free material, or an Australian Certified lined paperboard.

This type of lid is **banned if the customer is being served food directly**. Food delivery, such as Uber Eats & 'doggie bag' applications at a restaurant will prohibit the use of a plastic lid hinged container.

## PP Containers & Lids

Our PP containers & lids are **acceptable to use, but only in a back of house/food preparation setting**. As this lid does not have a natural base that suits, it **cannot be used for any pre-packed or takeaway food settings**. However, this lid is acceptable for food storage and preparation, in the back of house. The use of this lid, with the matching base, is banned for all other food applications.

# 1. Plastic Straws

1<sup>st</sup> July 2022

Plastic straws are not recyclable because its small size falls through the cracks of the recycling sorting process. Plastic straws do not break down and have a high propensity to become litter.

# 9. Plastic Cups

## for cold beverages

1<sup>st</sup> October 2022

Most paper cups are not recyclable due to its plastic lining. The combination of paper and plastic make it difficult to recycle.

Plastic clear cups are recyclable, however have a high propensity to become litter. Although PLA is a bioplastic, it acts the same as plastic when it ends up in litter.

# 11. Plastic Lined Coffee Cups

1<sup>st</sup> March 2024

Most paper cups are not recyclable due to its plastic lining. The combination of paper and plastic make it difficult to recycle. Traditional forms of plastic lined coffee cups are not compostable, that is why Australian Certified Compostable cups are the replacement.

# CLING WRAP

1<sup>st</sup> September 2023

Landfill degradable plastics are banned because consumers may mistake this for compostable. A landfill degradable plastic will contaminate this waste stream. To reduce confusion and contamination, a natural product is the preferred option. If this is not available, then traditional plastic should be used.

## BANNED

Envirochoice Biocling

# 17. Plastic Lids - PP, PET, PLA Lids

Plastic lids that are separate or attached to the base are included in the ban.

## CONDITIONAL

Plastic lids are **NOT BANNED** in a **BACK OF HOUSE SETTING**. It is acceptable to use a plastic lid in a pre-packed takeaway food/retail setting, as long as the base is natural. Plastic lids are **BANNED** when food is **SERVED IN FRONT OF CUSTOMER**, for immediate consumption, or for delivery purposes. Please refer to page 5 for further explanation.
